# PEDIATRIC-FRIENDLY SOLUTIONS

## LOW SAMPLE VOLUME · CAPILLARY & MICRO-SAMPLING TECHNOLOGY

### Q-line Nanoduct®

Neonatal Sweat Analysis System

- Purpose-built for neonatal cystic fibrosis screening
- Minimal sweat volume required
- Fast, reliable conductivity-based results

### Q-line Macroduct® Advanced

Sweat Induction and Collection

- Standardized pilocarpine iontophoresis stimulation
- Widely used in pediatric CF diagnostic pathways
- Simple, safe collection process

### LifeDx H3Pro

3 Part Hematology Analyzer

- Ideal for pediatrics — only 9  $\mu$ L sample requirement, lowest in segment
- CBC + 3 Differential, 21 parameters

### Sysmex XQ-320

3-Part Differential Hematology Analyzer

- Only 16  $\mu$ L aspiration volume — micro-sampling technology
- 20 hematology parameters

### Abbott i-STAT 1

Portable Blood Analysis System

- Small blood volume per cartridge — ideal for NICU/pediatric bedside testing
- Rapid, lab-quality results at the bedside

### Mission HemoPro

Hemoglobin Testing System

- Capillary fingerstick sampling — child-friendly testing
- Ideal for pediatric anemia screening programs

### OnCall GK Dual

Blood Glucose & Ketone Monitor

- Capillary fingerstick glucose & ketone testing
- Minimal blood volume required for pediatric diabetes monitoring

### QDx A1c Advance

One Step A1c System

- Fingerstick capillary HbA1c testing
- Fast result with minimal sample volume

### Horiba Yumizen H500 & H550

5-Part Differential Hematology Analyzer

- Compact, low-volume sample handling
- Multiple tube configurations for flexible pediatric workflows

## WHY LOW SAMPLE VOLUME MATTERS

Pediatric and neonatal patients demand a different standard of testing — every microlitre of blood matters. PathoHub curates a range of instruments purpose-built or exceptionally well-suited for low-volume, capillary and micro-sample testing, so your lab can serve its youngest patients with confidence.

- Micro-sampling technology minimises repeat blood draws in infants & children
- Capillary/fingerstick compatible platforms reduce patient discomfort
- Purpose-built neonatal sweat testing for cystic fibrosis screening programs
- Rapid, bedside-capable results for NICU & pediatric critical care
- Trusted global brands with proven pediatric & neonatal use cases

# ABOUT PATHOHUB

## WHY CHOOSE PATHOHUB

- 15+ years combined team experience in IVD distribution
- 800+ satisfied customers & channel partners across Gujarat
- Authorised distributor for globally leading IVD brands
- Dedicated installation, training & after-sales service team
- Genuine products with full manufacturer warranty
- Prompt reagent & consumable supply chain

PathoHub is an IVD Distributor based at Ahmedabad, established since 2014. Presently the company is involved in distribution of various leading companies of the IVD industry. Our goal is to provide uninterrupted services to our esteemed clients across Gujarat with a highly dedicated team of more than 15 people, serving 800+ customers & channel partners.
